

# IT'S TIME TO ENACT THE EQUALITY MODEL.

## What is the Equality Model?

The global sex trade is a 120 billion dollar industry where every dollar of profit is fueled by human pain. The Equality Model seeks to address this by:

**Decriminalizing**  
those who are prostituted  
and trafficked.

**Providing support**  
to help those who seek to exit  
the sex trade rebuild their lives.

**Holding accountable**  
pimps, brothel owners and buyers  
for the harms they cause.

## A side by side comparison of the Equality Model and full decriminalization/legalization.

Issue/Injustice	= Equality Model	≠ Full Decriminalization/ Legalization
Demand for prostitution	Reduced	Increased
Sex Trafficking	Reduced	Increased
Reports of incidents of violence against prostituted people	N/A	Increased
Dedicated support services for survivors	Available	Not Available
Societal Attitudes	Increased belief in gender equality	N/A
